MOHAMMAD SYAFIQ BIN MOHAMMAD ZAHIR

SOFTWARE DEVELOPER/SPECIALIST

syafiq.zahir@yahoo.com | Selangor | +6011-1432 8225 | https://syafiq.vercel.app/

PROFESSIONAL SUMMARY

Experienced Full Stack & Cloud Developer with 7+ years of expertise in building scalable microservices, cloud-native applications, and enterprise platforms. Strong proficiency in Node.js, TypeScript, Angular/React, AWS, Docker, CI/CD, and system architecture. Proven contributor to high-impact projects, cloud migrations, automation pipelines, and award-winning enterprise solutions. Adept at end-to-end development, troubleshooting, system design, and cross-functional collaboration.

PROFESSIONAL EXPERIENCE

Portal Developer / Specialist **Oct 2022 – Present**

Maxis Broadband Sdn. Bhd.

- Developed and maintained scalable microservices using Node.js, Express, TypeScript, and modern frontend frameworks (Angular, React, Vue).
- Built and implemented RESTful APIs, event-driven architectures, and distributed systems.
- Containerized applications using Docker, created multi-stage Dockerfiles, and automated AWS deployments via TeamCity CI/CD and Terraform.
- Migrated and developed microservices with GitLab CI/CD, enabling automated build, test, and deployment pipelines.
- Hands-on with AWS services including ALB/NLB, API Gateway, Lambda, ECS (Fargate/EC2), Secrets Manager, RDS, S3, DynamoDB, CloudWatch, IAM, VPC.
- Configured Nginx reverse proxy, security hardening, and production optimizations.
- Integrated Google Cloud Run with Firestore and used Vertex AI for chatbot development.
- Performed monitoring and troubleshooting using OpenSearch & Kibana.
- Implemented OAuth2 authentication for Maxis Identity, delivering secure customer login and seamless identity verification integration for internal teams, third-party partners, and vendor applications.

Key Achievements

- Awarded Team Award: GitLab Migration Project (Q4 2024).
- Played a key role in AWS region migration (Singapore → Malaysia), reducing cloud cost by 30% and improving latency.
- Awarded Team Award: Maxis Enterprise Device Portal (Q4 2024).

Web Tech Lead **Mar 2022 – Aug 2022**

AxelCloud Technologies Sdn. Bhd.

- Deployed live clinic/hospital information system using AWS resources.
- Built company and CURAX websites using Docker + AWS.
- Developed a government system for Malaysia Productivity Corporation (MPC) launched by YB Dato' Seri Mohamed Azmin Ali.
- Setup mail servers and broadcast systems for Academy in Factory (AiF).
- Provided workshops, training, and end-user support for MPC projects.

Full-Stack Developer **Jun 2021 – Feb 2022**
Digital Venus Sdn. Bhd.

- Developed mobile apps using Ionic v5.
- Built APIs via Node.js LoopBack (TypeScript) with PostgreSQL.
- Deployed backend services on AWS Elastic Beanstalk.
- Developed website integrated with iPay88 payment gateway.
- Wrote Angular unit tests for Ionic components.

Web / Back-End Developer **Aug 2018 – May 2021**
Poplook Sdn. Bhd.

- Oversaw product backlog, database backups, and e-commerce enhancements.
- Maintained Poplook Prestashop e-commerce platform and integrated multiple plugins.
- Deployed POS systems for new branches.
- Implemented split payment feature similar to SPayLater.
- Managed product syncing through NetSuite, enabling store availability visibility.

Network Engineer Trainee **Aug 2017 – Aug 2018**
Telekom Malaysia Berhad

- Documented meetings for server/rack installation in major data centers.
- Assisted in port configuration, cabling, and hardware mounting.
- Supported server and NetApp storage installation.
- Developed internal document directory portal.

Freelance Developer **Jul 2017 – Jul 2018**

- Delivered bespoke systems for ProOffice, Rocket Integration Technology, and HS Management Services.
- Built UiTM apps: bus tracking, home rental, autism emotion recognition, library scanner.
- Developed KKM patient system and government-linked applications.

Junior Web Developer **Feb 2017 – Jul 2017**
Vialing Sdn. Bhd. (formerly Barracuda Campus Sdn. Bhd.)

- Maintained and enhanced Campus Management System.
- Upgraded system from CodeIgniter to Laravel 5.
- Supported deployment for Xiamen University.
- Handled bug fixes and support tickets.

TECHNICAL SKILLS

Frontend: Angular, React, Vue, Ionic, JavaScript, TypeScript
Backend: Node.js, Express, LoopBack, PHP (Laravel), Python
Cloud: AWS (ECS, Lambda, RDS, S3, VPC), GCP (Cloud Run, Firestore, Vertex AI)
Database: MySQL, PostgreSQL, MongoDB, DynamoDB
DevOps / Tools: Docker, Kubernetes, GitLab CI/CD, TeamCity, Terraform, Redis, OpenSearch, Kibana, Jest, Mocha, Playwright, Postman, OpenAPI
Specialties: Microservices, REST APIs, Event-driven systems, OAuth2, CI/CD pipelines, Cloud migrations

EDUCATION

Bachelor of Information Technology (Hons) **2014-2016**
Universiti Teknologi MARA (UiTM) Shah Alam
GPA: 3.39

Diploma in Computer Science **2012-2014**
Universiti Teknologi MARA (UiTM) Arau
GPA: 3.44

PROJECT PORTFOLIO

Professional Projects

- Maxis Telesales Portal
- Barracuda Campus Management System
- Poplook E-Commerce System
- KKM Patient System (NCVD)
- A Plus Boss Mobile App
- HS Management Service Website & CMS
- AxelCloud Technologies Website
- MPC Academy in Factory (AiF) System

Freelance Projects

- LAUT System (Terengganu)
- e-Dengue Notification System
- e-Home Rental App
- UiTM Bus Tracking App
- Autism Emotion Recognition App
- Library Book Barcode Scanner

Final Year Project

- UiTM Student Collaboration Planner (Mobile App)
